Economics

Ferdowsi University of Mashhad

ABOUT MYSELF

My name is Mahdiar, and I am a **Front-End Developer** with a passion for creating dynamic and user-friendly web applications. With 2 years of professional experience, I specialize in modern technologies such as Typescript, React JS, Next JS, Redux & RTK, Tailwind CSS and another UI libraries.

EXPERIENCE

Pizzateria | 2023 - 2024

Online platform shop

Pizzateria is a dynamic Single Page Application (SPA) designed to provide a seamless online pizza ordering experience. Built with React and Redux Toolkit, this application offers a responsive and user-friendly interface, allowing customers to easily navigate through the pizza menu, manage their orders, and track their delivery status.

World-Conqueror | 2023 - 2024

keep track of the places app

Simple web app that allows users to keep track of the places they've visited. Built to highlight routing, the react context API as well as the leaflet library.

Portfolio | 2024 - 2025

My own portfolio web app

My portfolio web app showcases my work as a Front-End Developer, built with TypeScript, React, and Next JS. Utilizing Tailwind CSS and some UI libraries for styling, I have created a responsive and visually appealing design.
